

Smart Internz Tableau DataViz Challenge - 2021

Name - Kartikey Mishra

College Name - VIT University, Vellore

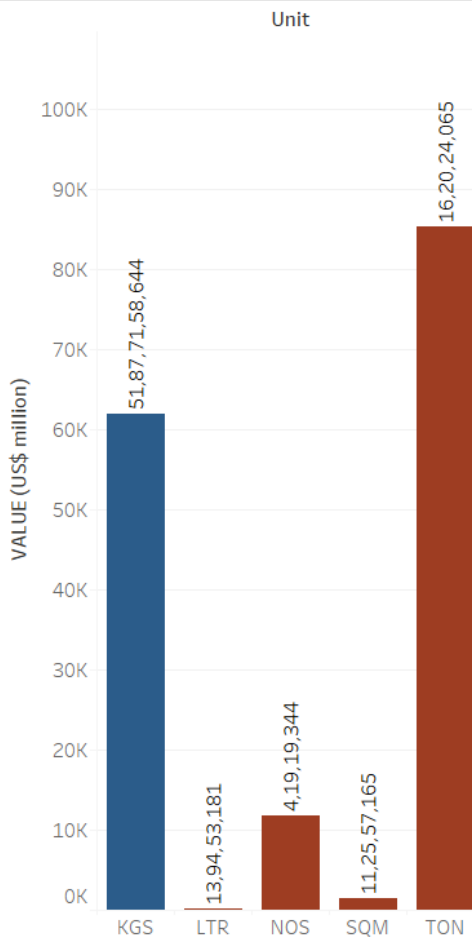

Project Title - Principal Commodity wise Export during 2019-20 from India

I chose my field as Exports and Imports and when I went to the govt. site in search of datasets, one thing in my mind was to connect my story to these days and hence, I took my dataset as updated and recent as I could find and I ended up choosing my dataset named Principal Commodity wise Export during 2019-20.

Under this dataset, I got the knowledge of how we exported many commodities to the entire world amidst this pandemic we are facing.

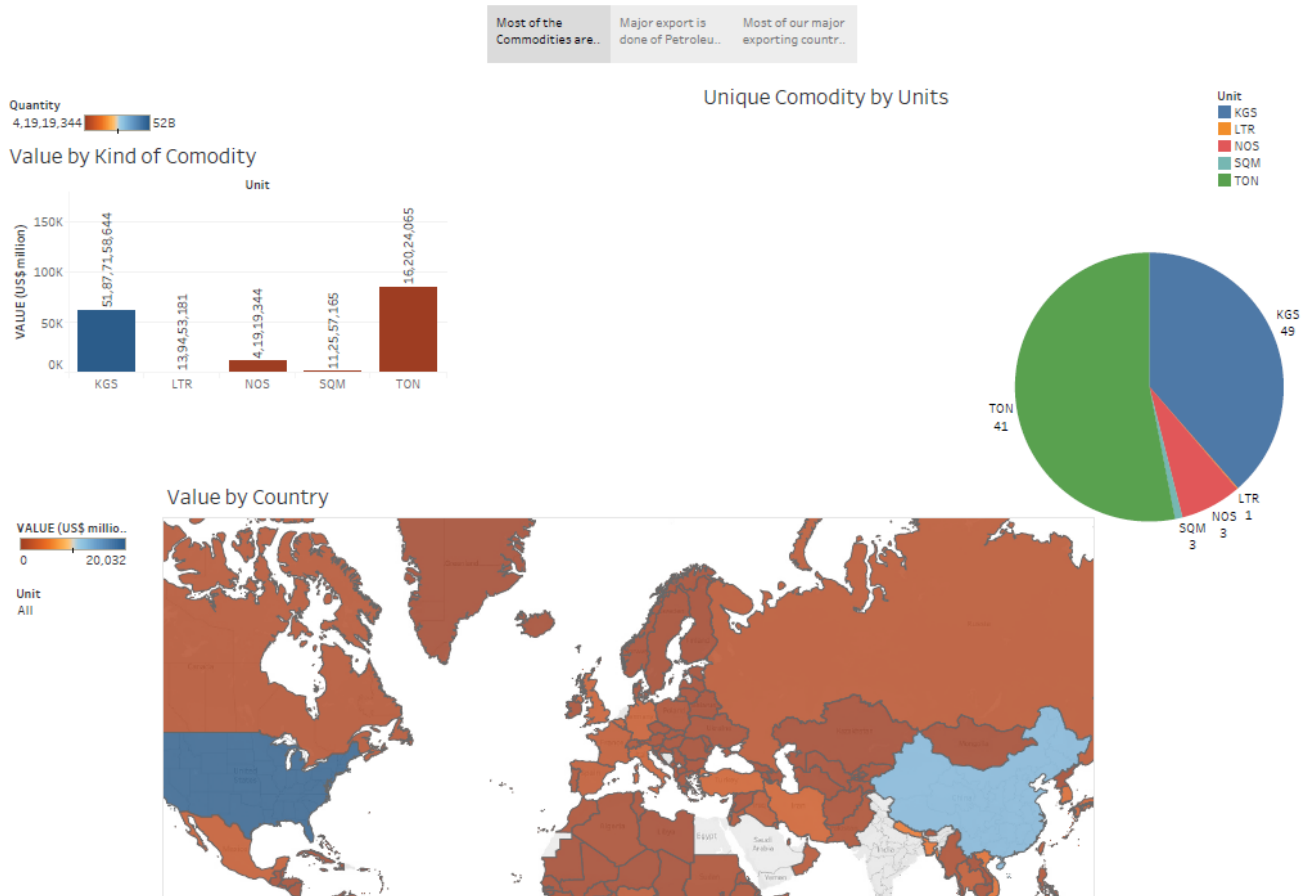

I shall share some of my insights with u guys-

Value by Kind of Comodity

This bar graph shows how the commodities were of different measures and what exporting value in US\$ Millions does each measure holds.

Principal Commodity wise Export during 2020

This dashboard shows how to which country we exported our commodities to the highest value and you can see different commodities exportation on different measures the commodity holds.

In my tableau story, I also shown which countries were the major importes of us and what commodities we exported majorly.

Kindly go through my Tableau Dashboard and Story for more insights.

Thankyou.
